

Profile

Brandon Hanacik

Experience

Burger Consulting Group — January 2017 to present

Senior Project Manager coordinating clients' implementation and integration of software solutions such as ERP, ECM, Employee Training/Tracking, Equipment, and HR Employee portals. Review and assess existing business processes to identify inefficiencies, and ways to develop/implement improvements for the client.

Rogers-O'Brien Construction — January 2012 to December 2016

Manager of Information Systems for \$400M general contractor who oversaw internal implementation and integration of various software products. Continuously worked with department heads to understand goals in order to implement solutions that increased efficiency in existing processes or created new processes. Was responsible for new-hire training and internal process resource.

Rogers-O'Brien Construction — January 2005 to December 2011

Project Manager charged with managing projects up to \$20M. Organized subcontractors, owners, and team members to ensure projects stayed on schedule and met financial goals.

Rogers-O'Brien Construction — January 2004 to December 2004

Assistant Project Manager responsible for Project Documentation for projects up to \$15M. Coordinated with owners, design teams, and subcontractors to ensure project was built according to contract documents.

Rogers-O'Brien Construction — May 2001 to December 2003

Quality Manager responsible for Project Documentation for projects up to \$15M. Coordinated with owners, design teams, and subcontractors to ensure project was built according to contract documents.
