Jacqueline Green

Experience

Burger Consulting Group — March 2012

Enterprise Content Management Consultant responsible for Document Management and Workflow assessment. Determining interface opportunities with the ERP, PM, Email and existing or future software modules. Assisting in developing Business Best Practices and establishing Record Management policies. Project Management extends from the software selection process through implementation. Experience with mobile/field technology and field data capture. Exceptional rapport and collaboration with the ECM software vendor community to bring efficient and optimal results. Provides change management to ease the transition of the introduction of new software.

Ace Hardware Corporation – June 1990 to September 2011

Senior Inventory Supply Chain Planner responsible for the planning, forecasting and procurement for 14 distribution warehouse locations servicing 5,300 independent retailers. Partnering closely with Merchandising professionals to develop and manage business strategies to drive sales and optimize inventory investment. Ongoing analysis of various business factors including past and present retail performance, seasonality, disaster relief and annual promotions. Planning of logistic and optimization warehouse space. Power user in the deployment of SAP, OnBase, E3 and Lean software.
